Thank you, Margaret.

A few comments from me.

9/18 2:35 pm to 3:25 pm: Standard Addition Technique and MU Calculation Under the Flexible Scope Approach

We have enough time to ask Brian Miller (MDA) to briefly explain how the MU calculation for the samples quantified by the standard addition technique works. I volunteer him for that again. So, please put both Brian and my name on this topic.

9/18 4:10 pm to 4:25 pm: Report out on 2019 National Lab Workshop held at Florida Department of Agriculture

MN lab sent one analyst to this workshop. If none of the attendees of the meeting went to workshop I'll talk to the analysts and do update on behalf of him

9/19 9:40 am to 9:45 am: Discussion of 2019 Laboratory Issues PREP, Richmond, VA

I think we can spend longer time on this topic (15-20 minutes). They had a lot to cover. ...unless Brian specified it will be 5 minutes

Subject: RE: Call for Agenda Topics for the Region 5 State Pesticide Laboratory Directors Meeting- September 18-19, 2019- FIRST DRAFT AGENDA-

Hello All,

Thanks for sending your topic ideas. We have some good topics for discussion and we still have room for a few more.

1. Turquoise highlights- Ping and Amy, please confirm that you will be able to provide updates on pesticide formulation check sample program and the pesticide residue check sample program.
2. I've highlighted new topics in red.
3. Please help me fill in the blanks for the 2019 National Lab Workshop.
4. Finally, *we still need a few topics* so please let me know if there are any subjects you would like to hear about (**all** are welcome to make suggestions) and if there are any topics you could share with the group. Usually the presentations are short (between 15 and 30 mins).

The agenda is not final and we are open to your suggestions. Please let me know if I've overlooked anyone or anything.

Thanks, again.

We are looking forward to seeing you next month!

Margaret

Subject: RE: Call for Agenda Topics for the Region 5 State Pesticide Laboratory Directors Meeting- September 18-19, 2019- Gentle Reminder

Good Afternoon,

I've had a request for the draft agenda from some folks, who need it in order to request permission to travel. However, I've only had two topics suggested so far. As you know, the meeting this year will be in September, which is earlier than usual, and it is only a month away.

Please take a look at the agenda from last year (sent on Friday, July 5) and let me know if there are any topics we should revisit, such as detection limits for enforcement samples, ISO 17025 accreditation, or dicamba analysis.

Also, the following topics related to lab workshops and conferences appear each year: Laboratory Issues Prep; and the National Laboratory Workshop. Please let me know if you would like to provide the group with a summary, if you attended one of those.

Finally, are there any special topics, such as new or unusual analytical challenges which someone could discuss?

I hope to hear from more of you with topics for the September meeting.

I'd like to draft the agenda and send it by *tomorrow*- could I hear from you by *noon tomorrow*?

Thanks!

Margaret

Subject: RE: Call for Agenda Topics for the Region 5 State Pesticide Laboratory Directors Meeting- September 18-19, 2019- Gentle Reminder

Good Morning, All,

This is a gentle reminder to send topics for the draft agenda and to reserve rooms for the September Region 5 State Pesticide Lab Directors meeting. Thanks to those who have provided topics so far.

We still have time, however, I know that several folks will need a draft agenda in order to make travel plans. (If anyone needs an agenda urgently, please let me know.)

New due date: *Monday, August 5, 2019.*

I hope everyone is enjoying the summer weather. Please let me know if there are any questions.

Regards,

Margaret

Subject: Call for Agenda Topics for the Region 5 State Pesticide Laboratory Directors Meeting- September 18-19, 2019

Hello,

First, welcome to new participants in the Region 5 Lab Directors group. We look forward to meeting everyone in September.

This is a call for agenda topics for the Region 5 State Pesticide Lab Directors Meeting on September 18-19, 2019. I've attached the 2018 agenda for reference. I've also attached a scan of the History of Region 5 State Pesticide Laboratory Workshops for lab analysts.

Please consider this as your meeting and suggest any topics which you think may be of interest to state pesticide laboratories. If there is interest, please add the recent EPA realignment as a discussion topic.

Below are a few topic suggestions and follow-up items from the wrap-up last October 2018:

1. Continue Quality Discussion, including: recap of Region 5 2018 Pesticide Residue Workshop in St. Paul, MN (Quality Theme) and Larisa's annual update on Quality topics
2. ISO 17025 discussion: update?
3. Bee Guidance for Labs: The following page includes a link to the Summary of Analytical Methods for Bees and Hive Matrices:

<https://www.epa.gov/compliance/guidance-inspecting-alleged-cases-pesticide-related-bee-incidents>

4. Pesticide Formulation Check Sample Program: Update
5. Pesticide Residue Check Sample Program: Update

Please let me know if there is anyone I may have overlooked and if you have any questions. *Please respond by July 25 with your topic suggestions.* This is not the last opportunity to add topics, however, we would like to have a fairly complete agenda in order to decide when to begin and end the meeting. *I hope to have a draft agenda for you by July 31.* (Let me know if anyone needs an agenda before then.)

We are looking forward to another great meeting.

All the best,

Margaret
